#### AMC1 FCL.1020 Examiners assessment of competence.

- (a) The CAA may nominate either one of its inspectors or a senior examiner to assess the competence of applicants for an examiner certificate.
- (b) Definitions:
  - (1) 'Inspector': the inspector of the CAA conducting the examiner competence assessment;
  - (2) 'Examiner applicant': the person seeking certification as an examiner;
  - (3) 'Candidate': the person being tested or checked by the examiner applicant. This person may be a pilot for whom the test or check would be required, or the inspector of the CAA who is conducting the examiner certification acceptance test.
- (c) An inspector of the CAA or a senior examiner will observe all examiner applicants conducting a test on a 'candidate' in an aircraft for which examiner certificate is sought. Items from the related training course and test or check schedule will be selected by the inspector for examination of the 'candidate' by the examiner applicant. Having agreed with the inspector the content of the test, the examiner applicant will be expected to manage the entire test. This will include briefing, the conduct of the flight, assessment and debriefing of the 'candidate'. The inspector will discuss the assessment with the examiner applicant before the 'candidate' is debriefed and informed of the result.
